- Versed in Agile project management with integrated CI/CD pipelines.
- I love cleaning, caching and splitting code to create the best experience.

Influences

[Atomic Design](#), [Gitflow](#), [Agile Methodology](#)

Experience **Lead Developer / Sleep eCommerce**

2017 - Present

- Managed each project from conception to release.
- Created basic branding and style guides for all major projects.
- Delegated tasks out of my expertise to experienced agencies and professionals to meet each projects scope of work.
- Developed fluid admin functionality with self sufficient clients in mind

Featured Projects: theoutsiders.com, alcatrazescapegames.com,
watsons-streetworks.com, associationgloves.com

Full Stack Web Developer / VITAL BGS & Sizzle Factor

2015 - 2017

- Hosted and developed all sites internally across several PHP frameworks including WordPress/WooCommerce, Magento and OpenCart
- Assisted building CI/CD pipelines for high-yielding eCommerce clients
- Transformed legacy CSS codebases into modern responsive styles.

Featured Projects: bricstore.com, doggienation.com, woodenduckshoppe.com,
gregnormancollection.com, hardtailforever.com

Freelance Web Development and Hosting

2013 - Present

- Created and hosted sites for large institutions like [NYU](#) to small companies needing to book parties divagirlspaparties.com
- Volunteered to host and help found a youth code camp codedcamp.com that has recently partnered with Microsoft and "Hour of Code".
